

Correct Change?

For each problem, decide if the buyer receives the correct change after purchasing the item at the right. If the change is correct, write *correct*. If the change is not correct, write *incorrect*. Then write the correct amount of change.

1. Lei pays with a \$5 bill. She receives \$1.64 in change.

\$ 4.36

2. Darren pays with two \$1 bills. He receives \$0.29 in change.

\$ 1.71

3. Simone pays with a \$5 bill. She receives \$1.75 in change.

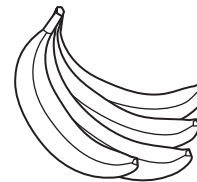

\$ 3.25

4. Milton pays for his ticket with a \$5 bill. He receives \$2.75 in change.

\$ 2.50

5. Jackie pays with one \$1 bill, 2 quarters, and 3 dimes. She receives \$0.03 in change.

\$ 1.73

6.  **Explain** how you solved Exercise 5.
