

# HARRY SMITH

Honesty: He is being honest by following the rules of law.

Respect: He treats everyone fairly.

Inclusion: He includes the jury in his decisions.

Responsibility: He is responsible for putting people in jail if they did something bad.

Caring: He protects people from bad people.

Good morning students and teachers today I will be talking about heroes. People talk about heroes. People admire all sorts of traits but what are the qualities of a real hero. What are the qualities of someone who actually does well in the world?

My hero is Harry Smith because he is grate at all of the H2 crew values but I will only be talking to you about 3 of these H2 crew values. In my mind, here are the three main ones Honest, Respect and Responsibility. In my mind the H2 crew values are perfect for Harry Smith. He is a person who portrays all of these H2 crew values.

Honesty is the first quality shown by Harry Smith. He always needs to be honest. He need to be honest because he is a judge and he has to be honest if the guy that is in court is guilty. Also if the guy is his friend he can't lie so the guy in court so he isn't guilty and doesn't need to go to jail!

Another H2 crew value is respect. Harry Smith is always respectful because he has to be respectful to the Jury and the person he is judging. He also has to speck respectful to all the people. Next we will be talking about how he is responsible.

The most important quality of Harry Smith is Responsibility. In my mind this is how he is responsible. First, he is responsible because he has to be responsible by saying if the person is guilty or not.

These are Harry Smiths H2 crew values.
