

## Jordin Tootoo

H2Crew values: Honesty, Respect, Caring, Inclusion, Responsibility

My name is Reid. I will be telling you about Jordin Tootoo today. He is a hockey player and his number is 22. He has played for lots of teams. Jordin has shown all of the H2 Crew values. Honesty, Respect, Inclusion, Responsibility and Caring. Today I will be telling you about 3 of them. I will tell you about Honesty, inclusion and Responsibility.

Jordin was honest when he voluntarily entered a substance abuse program for his alcohol problem. I think he did that because he is a hockey player. But entering a substance abuse program without being told is pretty hard. A substance abuse program is when people are addicted to something and will not stop. That person will get told to go to a substance abuse program. They will eat healthy food and get exercise. After one month the NHL knew he was coming back.

Jordin was inclusive when he hosted the first hockey camp in his home town for local kids. That means Jordin was the first person in Nunavut to let kids come and try or practice hockey. The team Tootoo foundation began in 2011 to raise awareness for anti-bullying.

In conclusion, we know Jordin Tootoo is a good hockey player but also a good person. He shows many of the H2 values such as honesty, inclusion and responsibility with actions. It is his actions that make him a good person. I like Jordin for the reasons I said in this presentation and he is one of my role models.
