<TURN OVER>

I understand that having the opportunity to retest is a **privilege**, and I should NOT take it lightly. There was obviously a reason I did not do well the first time. I need to address those issues and fix them before taking the retest, asking adults for help as needed. I also understand that my original score will be averaged with my retest score for my final test grade. I verify that I have studied, practiced, and attended at least one tutoring session to review my mistakes. I am prepared to do my best on this retake.
