Investigative Challenge

WHO IS Mrs. Connors?

Today you will be investigating your teacher. Your first task is to **observe** the suspect (your teacher) and the scene (classroom). What evidence do you notice, and what does it say about your teacher? Use the post-it notes below to **record** each piece of evidence. Then, **analyze** each piece of evidence to determine what it reveals about the suspect. Find at least one fellow investigator and compare/contrast your evidence and analysis. Finally, **summarize** your conclusions in the "Suspect Bio" section. Your goal is to describe your teacher as thoroughly as possible. (Consider things like personality, teaching style, attitude, hobbies, etc.)
