Time will be given in class prior to the above due dates for students to work in class and ask questions regarding upcoming assignments. Students should come to school prepared with any information and/or materials necessary to complete science fair assignments during the designated class periods. **Please note that the experiment process must be completed at home and recorded in the log book.

Real pictures (not clip art) should be included as part of recording data in the log book.

Science Fair Rules and Guidelines will be posted on Canvas for your convenience.

Please read and sign below NO LATER THAN September 17th, 2018.

Science Fair Project Topic:

Teacher Approval (required before starting experiment) _____

I understand that my child has a complex and rigorous long term project due on or before the above dates. I will supervise their use of internet resources, guide them when needed, and encourage their learning. No experiments are allowed to start without the parent AND teacher approval to assure that procedures are safe and appropriate for their grade level. *This notice is to provide sufficient time to adjust to new deadlines provided.

Student Signature Date _____

Parent Signature Date _____
