

Types of Immunity

Innate Immunity
Organs, tissues, and cells of the immune system that you are born with, e.g., skin

Acquired Immunity
Immunity that develops during your lifetime

Active Immunity
Develops in response to an infection or vaccination

Passive Immunity
Develops after you receive antibodies from someone or somewhere else

Natural
Antibodies developed in response to an infection

Artificial
Antibodies developed in response to a vaccination

Natural
Antibodies received from mother, e.g., through breast milk

Artificial
Antibodies received from a medicine, e.g., from a gamma globulin injection or infusion
