

Lesson 11 ~ Subtracting Integers

Name _____ Period _____ Date _____

Use a number line to find each difference.

1. $-2 - 4$

2. $1 - (-3)$

3. $7 - 10$

Find each difference.

4. $9 - 5 =$

5. $6 - (-2) =$

6. $-3 - 7 =$

7. $8 - 11 =$

8. $-10 - (-2) =$

9. $15 - (-1) =$

10. $16 - 19 =$

11. $21 - 15 =$

12. $8 - (-4) =$

13. $30 - 70 =$

14. $-3 - (-3) =$

15. $-5 - 5 =$

16. $-10 - 9 =$

17. $-2 - (-1) =$

18. $100 - (-80) =$

19. Write a subtraction expression that involves two positive integers and has a negative answer.

20. Write a subtraction expression that involves two negative integers and has a negative answer.

21. Write a subtraction expression that involves two negative integers and has a positive answer.
