

El Mapa de ESPAÑA

DUE: Monday, October 28, 2019
Grading: Test Grade. 10 points off each day late.

Introduction

Since we will be going along with Alejandro on his “trip” to *España* this year, we need to learn more about the geography of Spain. The *comunidades autónomas* de *España* are similar to our states, and each one has its own distinct flavor. We will also be identifying some of the major cities, rivers and mountain ranges in Spain. At the end of this project you will have a good working knowledge of the geography of Spain.

Instructions

- Locate all places listed on back in an atlas and/or the map in a Spanish textbook (you may use one in my classroom), and write them NEATLY on your map in the following manner:
 - Countries [*Paises*]** Black ALL CAPS
 - Comunidades Autónomas** Blue ALL CAPS
 - Cities [*Ciudades*] (with *dots*) & Individual Islands [*Islas*]** Red
 - Mountain Ranges [*Cordilleras*]** Brown
 - Oceans & Rivers [*Océanos y Ríos*]** Blue
 - Miscellaneous [*Misceláneo*]** Purple
- The country of **Spain** should be written (in Spanish) as the TITLE of your map.
- Be sure to write all place names in Spanish, not as you see them in English in the atlas.
- All Autonomous Communities must be colored in with different colored color pencils.
- Do not use thick markers or crayons. Only use colored pencils and thin-tipped pens/markers.
- Do not put anything extra on your map.

If, for some reason, you must TYPE your labels instead of writing them by hand, you must get approval from me at the start of the project.

Extra blank maps are available on my web page under WORKSHEETS.
