## Types of verbs

In Spanish, there are three kinds of regular verbs. The infinitive (unconjugated form) indicates what type it is:

- Those that end in “-ar” *hablar*
- Those that end in “-er” *comer*
- Those that end in “-ir” *vivir*

- When you drop the ending of the verb (*ar*, *er*, *ir*), you are left with the **stem**.
- The **stem** tells the meaning of the verb, but not who does the action

To “conjugate” ANY regular verb:

**Step 1:** drop the “ar”, “er” or “ir” from the end of the infinitive. Now you have the **stem**.

**Step 2:** To the **stem**, add the ending that matches the subject, to tell who does the action.
