Issue 5

Math

We completed chapter 1 this week and took our quiz. The kids did really well. Chapter 2 has begun as well. The kids learned about the different addition and subtraction properties. This chapter will continue for the next few weeks. Keep working on those math logs at home. The kids should be practicing their math facts on a regular basis. I would really like the kids to focus on those multiplication facts.

Language Arts

Our first unit in CKLA continues to move along nicely. The kids worked on using transition words in their writing. They are currently reading a personal narrative about a girl who battled polio. We are focusing on character traits as we read too. The kids will have a spelling test on Monday. This quiz will cover “No Excuse” list # 4. There is no vocabulary next week do to us only having 3 days. Vocabulary will resume the week of the 9th.

Science

The kids investigated energy this week. They worked in teams to experiment with different forms. They worked really hard with their team too. This unit will take us through the months of August, September, and October.

Social Studies

Our government unit wrapped up this week. The kids will start working on a slideshow with a partner. We will have a government quiz next Friday. A study guide will come home today. Please keep that at home next week. If the kids bring it back next Friday signed by a parent, I will give them an extra credit point
