

Meet a Baby Panda

by ReadWorks

In the United States, pandas live in zoos. Some baby pandas are born in the zoo.

At first, a baby panda does not look like its mother. It does not have much hair at all. Its eyes are closed. The baby drinks its mother's milk. The mother holds the baby in her paws.

The baby grows quickly. Now it looks like its mother. Soon the little panda starts to eat bamboo. Bamboo is a kind of plant.

Then the panda spends less time with its mother. It likes to be on its own. It will climb trees. It will sit on their branches.
