

Homework: My Computer has a Virus HELP!

You can complete this homework task on a computer, laptop, tablet or smartphone

There are many practices to think about when using a computer. Knowing what to do about a computer virus is one of them.

Type the address: **ictonline.educatorpages.com** into the address bar of your browser.

The address bar is generally at the top left-hand side.

Click the Computer Safety tab.

Then click: Computer viruses

Look through the webpage

TASK: Make a list in the space below of the top four tips that you would suggest to a friend who thinks they have a computer virus.
