

Adding a Webpage to Bookmarks or Favourites

All web browsers such as Google Chrome, Internet Explorer and Safari allow you to save webpages to 'Bookmarks' or 'Favourites'. The terms Bookmarks and Favourites mean the same thing; the webpage you are viewing is added to a list so that you can find it again easily.

Click the Star icon  and a box will appear showing you saving it to favourites.

Some ICT assessments or exams require you to screen print this process and paste it into a Word document as evidence.

Task

1. Search the internet to find a picture of Party Bags.
2. Bookmark/add a favourite of the webpage where you found the picture.
3. Take a screen print of you bookmarking the page and paste it into a word processed document. Crop and resize the screen print.
4. Add your name to the document.
5. Save the document with an appropriate file name.
