

# ***Homework: Creating Strong Passwords***

You can complete this homework task on a computer, laptop, tablet or smartphone

There are many practices to think about when using a computer online. Creating strong passwords is one of them.

Type the address: **ictonline.educatorpages.com** into the address bar of your browser.

The address bar is generally at the top left-hand side.

Click the Computer Safety tab.

Then click: Creating strong passwords

Look through the webpage and the video clip

**TASK: Make a list in the space below of the top five tips that you would suggest to a friend who wants to create a strong password.**

**1**

**2**

**3**

**4**

**5**
