

Level 1 Example Spreadsheet Formulas

Subtract = A2-B2

Add two cells = A2+B2

Add a column or row = SUM(A2:A10)

Divide = A2/B2

Multiply = A2*B2

Average = AVERAGE(A2:A10)
Returns the average of all values in cells between A2 and A10

Level 1 Example Spreadsheet Formulas

Subtract = A2-B2

Add two cells = A2+B2

Add a column or row = SUM(A2:A10)

Divide = A2/B2

Multiply = A2*B2

Average = AVERAGE(A2:A10)
Returns the average of all values in cells between A2 and A10
