

2012

- In 2009, why did Dr. Adrian Helmsly go to the copper mine in India?
- How deep did they go down?
- What was the effect of the mutated neutrinos?
- What was the result of Dr. Adrian crashing the fundraiser on his return to the USA?
- At the Summit meeting in 2010 in British Columbia, what did the President have to tell the other heads of state?
- In the Ming Valley in 2010 - What were they told they were building?
- In 2011, what was the point of the hotel visit?
- The scene at the museum was to show you what?
- When they are talking about the end of time, what are they talking about?
- What happened when they were boarding the ocean liner?
- Where did the Curtis family head to go camping?

- Charley was on the radio - what was he talking about?
- Were the earthquakes on the west coast caused by plate tectonics? And give one reason why or why not.
- What is missing at Yellowstone? And who comes to meet the Curtis family?
- 2700°C at 40,000 ft. with a 0.5% raise per hour (at Yellowstone) - who did they send the information to? What was happening to the crust?
- What is happening in the hot zones?
- What did Charlie tell Jackson about was going to happen?
- What does the President have to convince them of?
- What makes Jackson react so desperately to get out of California?
- What was happening to southern California?
- The family flies to Yellowstone to get what from Charlie?
- What does the family witness at Yellowstone?
- From the map, where do they have to go?
- How long would it take for the dust cloud from the Yellowstone caldera or super-volcano to reach Washington DC?

- What has happened to Hawaii? And why is that a problem?
- Which heads of state did not go to the arks?
- With the shift in the crust what would happen to the water?
- What has happened to the poles?
- What had happened to the crust as they approach China?
- How was Ark 3 damaged?
- The countdown clock was adjusted because ...
- As the tsunami struck the ark & they can't close the gate - what mountain did they nearly crash in to?
- What happened on Day 27 Month 01 Year 0001?
- As the crust stabilized and ocean levels recede - what is now the roof of the world?
