

$$3. \text{ Owen} = x + 250$$

$$\text{Harmony} = x$$

$$x + x + 250 = 880$$

$$\begin{array}{r} 2x + 250 = 880 \\ -250 \quad -250 \\ \hline \end{array}$$

$$2x = 630$$

$$x = 315$$

∴ Owen collected $315 + 250 = 565$
Harmony collected 315

$$4. \text{ Dora's age} = x$$

$$\text{Trinity's age} = x + 4$$

$$x + (x + 4) = 30$$

$$\begin{array}{r} 2x + 4 = 30 \\ -4 \quad -4 \\ \hline \end{array}$$

$$\frac{2x}{2} = \frac{26}{2}$$

$$\boxed{x = 13}$$

∴ Dora is 13

Trinity is 17.
