

# EMHS Algebra 1

Mrs. Lee

**No Zoom Days**  
 No Zoom classes on Tuesday September 8th!

**Zoom Schedule Changing**  
 Zoom Classes on Monday, Tuesday, and Thursday only.

Use Wednesday and Friday for catch-up, student-teacher engagement, etc.

## Problem of the Week

### Buying a Book

Ashton only saves quarters and dimes. He has already saved 13 quarters and 5 dimes. In Canada, one quarter equals 25 cents, one dime equals 10 cents, and 100 cents equals \$1 (one dollar). He wants to purchase a book that costs \$7.75. Not including the money he already has, what combinations of quarters and dimes could Adam save so he has exactly enough money to buy the book? Show your work using pictures, words, or numbers.

## Weekly Lessons

**1**  
 USING PROPERTIES TO SIMPLIFY EXPRESSIONS

**2**  
 ADDING & SUBTRACTING EXPRESSIONS

**3**  
 EXPRESSIONS WITH MORE THAN ONE OPERATION
