

# EMHS Algebra 1

*The only way to learn mathematics is to do mathematics - Paul Halmos*

## Problem of the Week

[click here to watch the video](#)

Then do the practice problems titled using slope and intercept in context. you do you have to record your answers here. (15 minutes)

Students have been working on linear functions learning slope of a line including slope-intercept, point-slope, and standard forms of a line. This week they are to be finishing the Linear Functions unit as well as the Solving Rate Problems lesson, and starting absolute value equations.

Next week we will be reviewing slope equations to check students' understanding.

**Monday: STE conferences for failing students.**  
Zoom is on Monday (No zoom Monday for 1st per), Tuesday and Thursday.
