

Friday Review 3-27-2020

“Fun Friday” 😊

Flashlight Reading

Pick a dark, quiet spot in the house, grab a blanket, a stuffed animal and a book and read with a flashlight!

STEM Challenge

Make a boat!

Build a boat out of tin foil. Set your boat in a tub of water and see how much weight it can hold. After trying it out, see if you can redesign it to hold more weight. Draw your model and include labels. After the experiment, write down how many items your boat was able to hold.

Different objects to use as “weights”...pennies, legos, dry beans, small rocks, beads, etc.

Footloose Friday

Put on one of your favorite songs and dance around the room! You could also create a dance and teach it to your family. If you have access to Go Noodle, choose 2 of your favorite videos and get moving!

Find it Friday

Go outside and see if you can find the following items...

- 5 leaves that look different
- A stick that is longer than your hand
 - A rock with spots on it
 - A flower
 - A flat rock
 - Something that is brown
 - Something that is heavy
- An item smaller than your thumb
- Something that starts with an “M”
 - Something that is yellow
